

Your Business Security Toolkit by Central Bank

Central Bank offers many great products and services to keep your business accounts and employees safe from internet fraud. Take a look at these options and tips to keep information secure.

- Combat Unauthorized Transactions with ACH Positive Pay**
Protect your checking account from unauthorized transactions and monitor debit activity on your accounts with ACH Positive Pay.
- Prevent Check Fraud with Check Positive Pay & Payee Positive Pay**
Reduce your risk and provide greater control over business funds and check payments with Check Positive Pay.
- Quickly Recover from Bad Checks with Re\$ubmittIt®**
In case you receive a bad check, Re\$ubmittIt® will remove you from the collection process and guarantees that if collected, you'll receive 100 percent of the face value of any bad check.
- Manage Your Business Funds Online with Business Online Banking**
Oversee all of your financial accounts and cash flow activities, including balances, transfers, payments, and deposits so you can monitor all that's happening. You can even set controls on payees and payments with secondary user approval.
- Set up Account Alerts for your Business**
Get real-time updates for pending deposits, account benchmarks, overdrawn accounts, transactions over a specific account, and more.
- Monitor Transactions with Business Credit and Debit Cards Alerts**
Get real-time updates on card transactions made with your Central Bank Business Credit and Debit Mastercard®.
- Educate and Arm Employees with the Central Bank Learning Center**
You work hard for your business, making it especially important for you to take the right precautions to properly protect it. The Central Bank Learning Center is filled with security-related resources to help your employees stay up on the latest threats.

Need some assistance? We can help! Call to set up an appointment at (800) 332-0190 or apply online today! You can also stop by any Central Bank location to learn more.
