Discover the Past of Jefferson City's Most Infamous Prison.

Uncover the chilling history of the Missouri State Penitentiary and what was once called "The Bloodiest 47 Acres in America" in Jefferson City on this exciting Classic Day Trip.

Throughout this history tour, learn about the facility and its notorious inmates. You may even hear a ghost story or two, as this is guaranteed to be a "spooktacular time." Plus, don't miss your chance to snap some unique photos of this historic landmark.

Walk the brand new Bicentennial Bridge which connects to a 30-acre parkland north of the Union Pacific Railroad, expanding Capitol tourism and providing access to the new park on a strip of land along the Missouri River known as Adrian's Island. The entrance to the bridge features a Gold Star Memorial honoring veterans and their families.

We will drive by the Missouri State Capital, Lohman's Landing, First German House and the Governor's Mansion.
