

Student Financial Education List

Money Talks with Teens Simulation Track

The below list of classes is designed to challenge and inspire financial wellness through reality-based learning. Classes are offered through intermittent gradual sessions or via a 3-to-4-hour workshop. A la carte options are also available for various classes on the list. Contact the program Director to learn more.

COURSE CATALOG

Planning for the Future

Students will participate in a planning exercise that will challenge them to consider career and family status life choices. Students participating in the simulation track will build their personal profiles to be used throughout the simulation.

Get the Job - Teens

This session will help students with building their professional profile through academics, volunteerism, networking, and references. Simulation track participants will incorporate learnings towards meeting goals.

Earnings, Payroll, and Deductions

In this class, students will be exposed to gross pay, various payroll deductions, and learn how to calculate net pay. Simulation track participants will be challenged to make selections based on their personal profiles.

Banking Basics - Teens

This session introduces students to banking and focuses on checking and savings accounts. They will learn about the differences and purposes of their bank accounts. Simulation track participants will choose accounts for their personal profiles.

Should I Rent or Buy?

This class will challenge students to consider residential living options based on needs, wants, and affordability. Simulation track participants will make selections according to their personal profiles.

Car Buying - Teens

During this class students will learn about some of the factors associated with buying a car. Students participating in the simulation track will make selections based on their individual profiles.

Teens and Money - Budgeting

Students will be introduced to the concept of budgeting and its importance. Students will learn about basic budgeting steps and resources.

Teens and Money - Savings

This class will cover the basics of saving and its importance. Students participating in the simulation track will be challenged to incorporate savings based on the needs in their profile.

Money Talks with Teens Simulation Wrap-up

This session seeks to tie various learnings from the segmented simulation track classes together. The goal is to challenge student thinking and provide a realistic view of money and factors that impact financial stability.
