Custom Card Design Fees	A fee will be added to the balance for custom card design: - Custom Design: \$250.00 per design.

Periodic Rates

ACCRUAL OF FINANCE CHARGES: There is no grace period before periodic rate finance charges begin to accrue on Cash Advances or Transaction fees related to a Cash Advance. Periodic rate finance charges accrue on Cash Advances and their related Transaction fees from the date of the Cash Advance or the first day of the billing cycle in which the Cash Advance is added to the Account, whichever is more recent. No periodic rate finance charges will apply to Purchases and other Program Fees and Charges that are paid in full on or before their applicable Payment Due Date, as shown by the Account Statements. Periodic rate finance charges will accrue on Purchases, and on Program Fees and Charges added to the Account as Purchases, beginning with the first day that follows the applicable Payment Due Date for each such Purchase or Program Fee and Charge.

PERIODIC RATE FINANCE CHARGES: Periodic rate finance charges will be calculated using daily periodic rates, which correspond to certain Annual Percentage Rates. These rates may also be different for Purchases and Cash Advances (collectively, the "Transaction Categories").

The rate for Purchases on the Account is an Annual Percentage Rate of 8.9% added to the Prime Rate.

The rate for Cash Advances on the Account is an Annual Percentage Rate of 13.9% added to the Prime Rate.

Prime Rate: Variable APRs are based on the 3.25% Prime Rate as of February 15, 2021.

FINANCE CHARGES AND BALANCE CALCULATIONS: The Account will generally have monthly billing cycles, but the first billing cycles may be more or less than one month. Bank uses the Average Daily Balance method to compute a portion of the Finance Charges on the Account. Bank calculates periodic rate finance charges separately for each Transaction Category.

(A) To compute Billed Periodic Rate Finance Charges:

- (1) For each Transaction Category, Bank multiplies the Daily Balance (see below) by the applicable daily periodic rate for each day of the billing cycle; then
- (2) Bank adds together all of the products calculated in (1) above.

(B) To compute the Daily Balance for each Transaction Category:

- (1) Bank takes the Beginning Balance of each day;
- (2) Adds any applicable new Transactions (such as Cash Advances and related Transaction fees, delinquent Purchases and other Program Fees and Charges, and debit adjustments);
- (3) Subtracts any applicable payments, credits, or credit adjustments; and
- (4) Bank treats a credit balance as a balance of zero.

Bank adds the amount calculated in accordance with (A)(1) above to the Daily Balance and this amount becomes the Beginning Balance for the next day.

On the Account Statement, Bank will calculate an Average Daily Balance for each Transaction Category by adding all the Daily Balances for that Transaction Category and dividing that amount by the number of days in the billing cycle. If you multiply the Average Daily Balance for a Transaction Category by its daily periodic rate and multiply the result by the number of days in the billing cycle, the total will equal the Interest Charge Calculation for that Transaction Category, except for minor variations due to rounding. This Agreement provides for daily compounding of finance charges and fees.

Cash Advance finance charges, if any, are added to the Cash Advance Balance and are shown on the Account Statement under "Interest Charged." Foreign Transaction and Cash Advance fees are shown on the Account Statement as "Fees Charged."
